## ARBOR DAY

To be Fittingly Celebrated at Union College

City Invited to Join With Them in Celebrating the Occasion

To-day, Friday, April 8th, has been set apart as Arbor Day and all the schools of the State have been requested to observe the day by planting out trees and in this manner many trees will be started that will prove a blessing to humanity in after life.

Union College has arranged to have a fitting celebration and have invited the city to join with them in celebrating the occasion and all everyone, who can, will turn out and lend a helping hand, the occasion can be made a pleasant and an enjoyable affair. 1:00 o'clock p. m. is the hour designated for the exercises to begin.

The time has come when we must give more attention to planting and caring for trees and stop the reckless waste and destruction of our forests, if we expect the coming generation to enjoy, as we have, the trees that adorn and bless the earth.

Did you ever think that with a few strokes of the ax, a tree can be felled, that it took perhaps a century to produce? That being true, it is very clear that the waste is much more rapid than the production, and unless some steps are taken to check the waste, we will soon inhale a treeless continent.

Let's teach the children the importance of the observance of Arbor Day, and the importance of sparing the trees.

## ELECTROCUTION LAW

Death Penalty Must be Paid on Gallows Until After June 14th.

Now that the bill establishing electrocution as the means of inflicting the death penalty, instead of by hanging, the time when the new law becomes effective is attracting interest. It was thought that any person sentenced to death, if the date was fixed subsequent to June 14th, when the new law becomes effective, would be electrocuted instead of hanged. There have been many questions asked regarding the new law and they have been answered by Capt. Jackson Morris, Assistant Secretary of State, who looked up the various points in the new law.

Capt. Morris finds that the new law expressly says that it shall apply only to persons convicted of crimes committed after the law becomes effective, which will be June 14th. So, if a man kills another on June 13th and is convicted and sentenced to death he will be hanged in the county in which the crime was committed, instead of being put to death by electricity inside the walls of the penitentiary. That being the construction that the courts give to the new law, it follows that there may be hangings in Kentucky for a year or more to come, as a man who may be sentenced to death seldom is hanged for a year after the crime.

It will take many months to build a death house and get the electric fixtures and current required. At present neither prison has enough current to kill a man and extra dynamo will have to be installed.

The Middleboro Hotel has completed arrangements to accommodate a party of 300 Louisville Red Men and their wives, who will be there to attend the State Great Council.

## McKINZIE TODD

Appointed to Succeed M. H. Thatcher.

Governor Willson has honored McKinzie Todd, his private Secretary, by appointing him State Inspector and Examiner, to succeed Hon. M. H. Thatcher, who has resigned to accept the position of President of the Panama Canal Commission.

Mr. Todd served as private Secretary to Gov. W. S. Taylor during his administration, and when Gov. Willson was elected, he immediately selected Mr. Todd as his Secretary.

The promotion unsolicited and is an honor that is appreciated, as it places Mr. Todd in the highest position within the gift of the Governor.

It will be a difficult matter to find a man who can take the place of Mr. Todd, as Private Secretary, who will be able to measure up to the standard as Mr. Todd has done.

We congratulate him upon his promotion and feel that there is not any one more deserving than Mr. Todd, and assure the public that he will look well to his new duties and be as faithful in them as he has in the duties of the past.

## BAPTIST PREACHER KILLED

Rev. George Brooks Fatally Shot in Bell County While Hunting.

On last Friday, April 1st, while hunting near his home at Ingram, Bell county, the Rev. George Brooks, a well known and liked Baptist minister, was instantly killed by an accidental discharge of a shotgun. He laid his gun on a fence to take a rest and while talking to a companion, when in some way jarred the gun from the fence causing the discharge of the gun with fatal effect. He is survived by a wife and several children.

## Storehouse Burned.

Last Thursday night about midnight, a barn standing within a few feet of the storehouse occupied by Charles C. Byrley at Four Mile was set on fire, and the flames quickly spread to the storehouse and it, with all the contents, were destroyed.

Mr. Byrley and his family occupied rooms in the store building and they were awakened barely in time to escape in their night clothing and lost everything in the building.

The stock of merchandise, amounting to about \$4,500, owned by Col. John G. Matthews, was a total loss with not a dollar of insurance.

## Successful Meeting.

Rev. M. G. Dizney has just closed a very successful meeting at Old Friendship, on Fighting Creek, which lasted for almost two weeks and resulted in nine conversions, three additions and the entire membership built up and the whole neighborhood greatly benefited.

Dr. Stratton conducted the Quarterly Meeting on Saturday and Sunday and assisted in the meeting on those days. The remainder of the time the meeting was entirely in the hands of Rev. Dizney as leader.

Mr. Wickliffe, the popular clerk of the Pineville Hotel, has accepted a position with the Middleboro and will be glad to meet all his former friends there.

## F. G. ROBERTS

Secures Good Position as a Guard at the State Penitentiary

Mr. Frank G. Roberts, formerly of this city, and a compositor on the cases in this office for some two or three years, has, through the influence of some of his good friends, landed a position as guard at the State Penitentiary at Frankfort.

We are surely glad to learn that he is so fortunate as to hold the position as guard, instead of felon, as the work is lighter, while the liberties are greater.

His many friends here will rejoice to learn of his good fortune and we have every reason to believe that he will make a good.

We wish you success, old boy. May your department be such that you will never be ordered to the ranks and march in lock-step, as many another unfortunate soul has done.

## Civic Spirit Appreciated.

Civic progress and development often goes slowly. Sometimes it does not go. But, however slow in progress, the expressed opinion of the community is even slower. The Civic League of Barbourville, Ky., composed entirely of women, recently had the rare treat of receiving an expression of appreciation from the Common Council of the city, in the form of a resolution of thanks. Against many discouraging circumstances the ladies of Barbourville plead with careless citizens to clean up the streets and aid in beautifying the town. The Civic League has done good work for Barbourville and deserves the appreciation of the whole population.—TOWA Development.

## IS A HUMAN LIFE AS VALUABLE AS THAT OF A HOG IN KENTUCKY?

The Kentucky Legislature failed to pass a measure providing a State Sanatorium for persons suffering from tuberculosis in Kentucky, though the State Board of Health estimates that there are probably 30,000 cases of this disease now existing in Kentucky and has shown that, in spite of the large amount of money annually being spent because of it, the death rate has not decreased and Kentucky stands now among the two or three greatest sufferers in Union from the disease. The Legislature passed, but the Governor vetoed, an appropriation for aiding private tuberculosis sanatoria.

The Legislature passed, however, and the Governor did not veto, bills appropriating \$20,000 annually to provide a hog cholera service, and \$5,000 annually to prevent the spread of communicable diseases among animals.

This record makes the following used in Indiana some time back seem most appropriate:

### Young Mother and Fat Hog; Not a Fabric; Simply Straight Goods.

One time a little mother who was only 25 years old, began to feel tired all the time. Her appetite had failed her for weeks before the tired feeling came. Her three little girls, once a joy in her life, became a burden to her. It was "Mamma!" "Mamma!" all day long. She never had noticed these ailments until the tired feeling came. The little mother also had red spots on her cheeks (and a slight dry cough). One day, when dragging herself around, forgetting her weary body to work, she felt a slight but sharp pain in her chest, her head grew dizzy and suddenly her mouth filled with blood. The hemorrhage was not severe, but it left her very weak. The doctor she had consulted for her cough and tired feeling prescribed bitters made of alcohol, water and gentian. This gave her false strength for awhile, but it checked out her little reserve. When the hemorrhage occurred, she and all her neighbors knew she had consumption, and the doctor should have known it and told her months before.

Now she wrote to the State Board of Health and said: "I am told that consumption in its early stages can be cured by outdoor life, continued rest, and plenty of plain, good food. I do not want to die. I want to live and raise my children to make them good citizens. Where can I go to get well?" The reply was: "The great Christian State of Indiana has not yet risen to the mighty economy of saving the lives of little mothers from consumption. At present the only place you can go is a grave. However, the State will care for your children in an orphan asylum after you are dead, and then in a few years a special officer will be paid to find a home for them. But save your life—never. That is a cranky idea, for a member on the floor of the Sixty-first Assembly said so. 'Besides,' said he, 'it isn't business. The State can't afford it.' So the little mother died of the preventable and curable disease, the babe was broken up, and the children were taken to an orphan asylum.

A big fat hog one morning found he had a pain in his belly. He squealed loudly and the farmer came out of his house to see what was the matter. "He's got the hog cholera!" said the hired man. So the farmer telegraphed Secretary Wilson of the United States Agricultural Department, (who said the other day he had 8,000 experts in animal and plant disease), and the reply was: "Cert, I will send you a man

right away." Sure enough the man came. He said he was a D. V. S., and he was too. He had a government syringe and a bottle of government medicine in his handbag, and he went for the hog. It wasn't cranky for the government to do this, and it could afford the expense, for the hog could be turned into ham, sausage, lard and bacon. Anybody, even a fool, can see it would be cranky for the State to save the life of a little mother, and in could not afford it, either.

Moral: Be a hog and he worth saving.

### ARBOR DAY BOOK.

Professor John Grant Crabbe, former State Superintendent of Public Instruction, has issued a most attractive illustrated book on trees and birds, for inspection and use on Kentucky Arbor and Bird Day, compiled by his gifted wife, Mrs. Jennie Grant Crabbe, the second splendid publication of the kind that has come from the present energetic head of our educational system.

The book starts off with a full page portrait of Governor Willis, followed by his proclamation designating Friday, April 8, as Arbor Day and a chatty letter from the Governor to the school children in which he talks to them about birds and trees and other living things and gives them much good advice in simple, homely phrase.

Prof. Crabbe injects a few words of helpfulness and cheer in the form of a bulletin announcement, urging all the schools to celebrate Arbor Day. He says a copy of this timely little volume is being sent to every teacher in the State. Mr. Crabbe's new song, "Kentucky School," is incorporated in the book, and its ringing words will be heard on Arbor day in many a school.

Mrs. Crabbe's book contains suggestions for indoor and outdoor programs on Arbor Day, instructions for tree planting, interesting facts about trees, landscape plans, list of native Kentucky trees, designs for planting, records, stories, dialogues, poems, songs, etc., suitable for Arbor Day, and a wealth of appropriate literature. A section of the book is also devoted to Kentucky birds and bird lore, with many illustrations and happy suggestions.

Have you made any inquiry in regard to the Bartlesville Township Co., and their proposition, as set forth in their advertisement in this paper?

This Company has some very fine sites and are selling them cheap on easy payments.

Suppose you read their ad again, on the third page of today's issue, and then write to them and ask any questions you care to know about this proposition.

The city of Bartlesville is growing very rapidly and should you buy now in the suburbs, you would soon be in the heart of the city, so fast are the developments there. You can not miss this opportunity if you are looking for an investment, and to be sure, if you are looking for a home, this is the place that will suit and please you.

The Company is reliable and you need have no fears of what they tell you, as they are stating facts, and stand ready to make their word good.

During the last eleven months 80,488 Americans have crossed the Canadian border for the purpose of settling in the great north-

west. During the corresponding period last year there were 60,000. The tide is increasing in volume every year. It is high time that southern railroads began in earnest to make known the superior advantages of southern farms.

### AN EXPENSIVE BEING.

The most expensive thing in American life is the fashion-crazed little American wife. Her desires are invincible from economize. And he dominant spirit is to ever antagonize.

Every effort of a husband to systemize. And keep his cash from being scattered. Say what he'll do in strenuous times. She always flouts a bill that takes all his dimes.

Now she wants to become a suffragette. And mix with all the old election bunnies.

While the hubby remains in the nursery at home. And she, in her feather and bow, catches the bum on the go.

Now while we protest if she's going to run. Man's business, her fashions and all.

That she get herself a suitable pair of overalls. While the poor guy at home and the children, they squall.

And they complain at the hubby who elow. And say it is filthy and of very little use.

But they will have their box and brush. And mop out something commonly called snuff.

### Fatal Dispute Over a Fence.

The parties had been at outs for some time over a line fence and a difficulty Hundley was hit over the head with a club, it is said, causing wounds that may result in his death.

Reward For Everybody!** Recompense for Every Form of Toil, Mental and Manual, greets **Every Seeker of Success.**--Oklahoma's diadem of prosperity has no brighter gem than BARTLESVILLE. The giant young Metropolis of North-Eastern Oklahoma offers all Kentuckians the richest opportunities. BARTLESVILLE, a dot on the map ten years ago had, in 1907, a population of 4,215. To-day its population exceeds 15,000; five years hence, it will be 50,000; ten years hence, 100,000.

If you are a manufacturer, get into a city where your efforts at town-building and your enterprise and public spirit will be appreciated and backed up--where a free site will be given you and you will have no investment for land; where your fuel or power will cost half what it is costing you now, and where insurance rate and taxes will be lighter. If your raw material is high-priced, or a mean competition is too hard, or your business too big for its present location, go to **Bartlesville**. Make a trip out there and investigate the labor supply and all other conditions of business.

If you are a farmer, go and get this good land while it is cheap. It will yield you a large income while you farm it, and when ready to sell it, you can get \$100 an acre for the land that cost you one-fourth or one-half that.

If you are a builder, go and erect the dwellings and business blocks needed for the rapidly-increasing population. Rents pay 20 to 40 per cent. on the buildings and you get the increase in the value of the real estate also.

**Buy a Lot For a Home Now.**--BARTLESVILLE will allow no men to be idle or moneyless. She puts every one to work, puts money in every pocket.

BARTLESVILLE district produces 100,000 Barrels of Oil every day. Mid-Continent oil field produce \$25,000,000 in one year.

Early to bed,  
Early to rise,  
Work like hell  
And advertise.

--Mike Kinney in "The Glimpse."

There are several cases of smallpox reported in Flat Lick at this time.

Received an interesting manuscript from the versatile pen of Mr. C. E. Merrill, of Lexington, which was too late for this issue, but will appear in our next issue.

Let Ralph Tuggle estimate your wall paper for you, and he will also put it on for you.

### Jas. Golden to Rebuild.

James Golden is tearing away the remains of his residence that was almost consumed by fire recently, preparatory to rebuilding on the same site. He received from the insurance company almost enough money to replace the one destroyed by fire.

Samples of Robert Graves' wall paper can be seen at England's Store.--Ralph Tuggle, Agt.

### Pastors Secured.

The Presbyterian and Baptist Churches of this city have secured pastors for their congregations, and the first sermons were preached by each of them in their respective churches on last Sunday morning.

Main, of this city, took a stroll in the direction of matrimony, which led to the residence of Rev. W. H. Burch, who performed the ceremony that made them one, and now they are marching down the rugged road together as one, made one by Holy writ and the law.

The Advocate joins their many friends in wishing them a happy and contented future.

### Note The Improvement.

If anyone who saw the Public Square a few years ago when it was covered with dogfennel, grown up knee high, should now step around and make an inspection since the Civic League have been devoting some time and attention to this part of our town, they will be able to note the transformation from dogfennel to flowers and shrubs and all that is beautiful.

Now is seen large tastefully arranged beds of flowers. Directly in front of the court house door is to be seen a bed of tulips, red and white, and adds a very pretty effect to the grounds. If you have not seen this tulip bed step down and look at it, then resolve that you will do anything the League may ask you to do to improve the town. Join in the civic improvement and soon we will have great reason to rejoice over the results.

**Soil.** The land we will allow to you is rich and fertile. You do not have to spend large sums of money clearing or getting ready for the plow, while all of this land needs but little work to make it free from shrubbery and stumps. The character of soil is ideal for Orange land and Fruit Groves. It readily produces because of its fertility with which nature has endowed it. The soil has not been washed into the rivers and lakes by great floods. It is exactly what we claim it to be, and will raise the same manner of crops as the fields now in cultivation alongside of our lands.

**Transportation.** The main lines of Florida's two great Trunk Line Railroads, the Seaboard Air Line and the Atlantic Coast Line pass entirely through our land, with frequent stations along their lines.

**Markets.** The Northern markets eagerly seek our products, for this region is famous wherever fruits and vegetables are sold. This fully and unequivocally means that we will refund every dollar that he has paid to us.

**Location of Our Colony Lands.** Our land is located South of Ocala, Florida, mostly in Marion, but extending over into Sumter and Lake Counties. It lies directly upon the Atlantic Coast Line and the Seaboard Air Line Railroads. All about this tract of land are located the Fruit packing and Storage Warehouses where the fruit for, one of the North, East and West come and is packed for shipment on the ground.

This land is only 30 hours run from New York, and 40 hours from Chicago. It is located upon the highest and healthiest land in the State, and is in the heart of the famous fruit and garden truck district of Florida. There are beautiful lakes through this section and yet not an acre of swamp or waste land in our entire tract.

Here come every year, Hundreds of Leisure-seekers, for the fine hunting, fishing and boating.

This land is simply indescribable in so small a space, but is more fully and completely set forth in detail, in our great Book, which we will send FREE to any one for the asking. Write to-day, mentioning that you read this offer in the Mountain Advocate, and address,
